6. SELECTION PROCEDURE

Selection of scholarship holders is carried out by the Selection Committee appointed by the Minister of Education, Science, Research and Sport of the Slovak Republic. The Selection Committee awards the scholarships based upon the documents attached to applicants' online applications. The Committee focuses mostly on:

- reasons, why the applicant has decided to study, teach, conduct research or artistic activities in the respective host institution;
- programme of applicant's study, research/artistic or teaching stay and how the applicant will use the results of his/her scholarship stay for further studies or teaching/research/artistic activities;
- applicant's professional and personal qualities;
- study or research achievements;
- attitude of applicant's host institution toward the applicant in the admission/invitation letter;
- overall quality of submitted application.

Scholarships and/or travel allowances are not legally enforceable; to be or not to be awarded a scholarship is influenced by meeting all the formal requirements of the programme according to the respective call for applications, applicant's quality, content of applicant's proposed stay and its necessity, and budget possibilities of the NSP according to the respective call for applications.

SAIA, n. o., will inform every applicant about being/not being awarded the scholarship within 8 weeks from the application deadline.
