

Summer School for Sustainability

UNIVERSITY OF
GOTHENBURG

We are very happy to announce the launch of the very first [University of Gothenburg Summer School for Sustainability](#). This is an opportunity for students to meet people from around the world and collaborate on finding solutions to sustainability challenges, all during 4 inspirational summer weeks in beautiful Gothenburg.

7.5 ECTS (European Credit Transfer and Accumulation System) credit points are available for each four-week course and all teaching will be held in English. All courses start on the 6th July 2020 and will run over 4 weeks, with the final day being 31st July 2020.

The following courses will be offered in 2020:

- Introduction to biostatistics and epidemiology with focus on global health (Sahlgrenska Academy)
- Teaching Sustainable Development from a Global Perspective (Faculty of Education)
- Climate Change and Inequality (Faculty of Social Sciences)
- Biodiversity in Western Sweden (Faculty of Science)
- Managing Migration (Faculty of Social Sciences)
- Building Sustainable Value Chains (School of Business, Economics and Law)

Requirements: All students taking part must have finished one term of studies at one of our partner universities. English level B2 (no formal test required).

Tuition fee: The Summer School is only open for students from our partner universities and is therefore tuition free.

Application process: Students wishing to apply must receive a nomination from their home university. Contact your international exchange coordinator to express your interest.

Social activities: Outside of the classroom, students will get the opportunity to experience summer in Gothenburg. A social program containing daytrips, social activities, workshops and networking opportunities is offered for all students outside of their chosen courses. In addition, a pick-up service from Gothenburg-Landvetter Airport will be available on the 4th July.

Accommodation: Accommodation will be offered for all students. The price for accommodation during the 4 weeks will start at 3700 SEK.
